TERMS AND CONDITIONS OF SALE

TERMS OF PAYMENT. Cash with order for immediate shipment. Orders for trees to be held for some weeks after the shipping season opens should also be accompanied by full payment. On orders booked in advance of the shipping season 25 per cent down, with the balance due when the shipping season opens. Shipment may be made C. O. D. for the balance when one-fourth of the amount of purchase paid with the order. Unless the postage added to the purchase amount no shipment made by parcel post.

TRANSPORTATION AT PURCHASER'S RISK AND EXPENSE. All transportation charges are to be paid by the purchaser. Our responsibility ceases upon delivery to forwarding companies; claims for losses or damages must be made upon the latter. We will, however, assist the purchaser to trace delayed shipment and use every means to secure prompt delivery.

ALL QUOTATIONS are immediate acceptance, subject to stock being sold. We shall not be subject to any liability should injury befall stock from freeze, fire or any other cause beyond our control.

WE GUARANTEE all stock sent out to be well grown, healthy, true to name and properly packed. Our liability under the foregoing guaranty is limited in amount to the original price received.

CLAIM. If by any possibly, error should occur they will be promptly rectified, if claim is made within ten days after the receipt of the goods.

FRUIT TREES

SATSUMA ORANGE

Strictly Owari Strain, buds being taken from the pedigreed trees. As they have grown in extra sandy soil our trees have best fibrous root system and adaptable to any kind of soil, and transplanting causes no setback for transplanting.

KUMQUAT

NAGAMI (oblong), NEIWA (round and sweet)—Nagami is preferred for preserve, while Neiwa for table use.

	Each	10	100
1 year old	\$.50	\$.45	\$.40
2-3 year old	1.00	.85	.75

We have fruited kumquat trees of pot culture. It is one of our specialties. These trees make the handsome and novel table decoration during the holiday season—October to May. They are edible as desert fruits from the growing trees.

Price \$1.50 to \$2.50 each with pot

PAPER SHELL PECAN

STUART—Best commercial variety, large nut and strong grower very good cracking quality.

SUCCESS—Large nut, heavy and early bearer. Shell thin, cracking quality good, partition thin.

SCHLEY—Shell very thin, kernel very full, flavor rich, best eating quality. Market price is generally 50% higher than that of Stuart or Success. Easy grower.

JAPAN PERSIMMONS

TANENASHI—Fruits very large, heavy bearer, best commercial variety.

FUYU—Tomato shaped fruit, excellent quality, edible before fruit gets soft. Recommended highly for commercial orchard as well as for home garden.

HYAKUME—Fruit large oblong, good eating quality.

HACHIYA—Large, oblong, conical, with short point.

TRIUMPH—Tomato shaped, fruit is small, but eating quality is excellent and heavy bearer.

TAMAPAN—Large tomato shaped fruit, oddly marked by constriction about the middle.

PEAR

PINEAPPLE PEAR (Chinese Sand Pear)—Absolutely blight proof. Fruit large, particularly good for cooking and preserving. Most desirable variety for commercial orchard in the Gulf Coast States.

LE CONTE—Good eating quality, fruit ripens early, best variety for home gardens in the South.

PEACH

MAYFLOWER—Fruit medium, one of the earliest of its group.

BELLE OF GEORGIA—Fruit large, flesh white, one of the best eating peaches, ripens in June.

ELBERTA—Most popular variety, large fruit, yellow flesh, free stone, ripens in August.

Size.	Each	10	100
2-3 feet	\$.40	\$.30	\$.20
3-4 feet50	.40	.30

PLUM

Not only grows easy, but also very prolific in the South. The following two varieties are proved to be most adaptable to this locality:

BURBANK—Fruit large, rounded and blunt-pointed; dark red, yellow flesh, sweet and juicy, ripens in July.

EXCELSIOR—Fruit (red) is rather small but one of the heaviest annual bearers.

Size.	Each	10
2-3 feet	\$.40	\$.35
3-4 feet50	.45
4-5 feet60	.55
5-7 feet75	.70

FIG

CELESTIAL—Called sugar fig as it is sweet and delicious.
Most popular variety in this section.

BROWN TURKEY—Fruit medium to large, brown in color,
a strong vigorous grower.

Size.	Each	10
2-3 feet	\$.30	\$.25
3-4 feet40	.35
4-5 feet50	.45
5 feet up75	.65

JAPAN WALNUT

Well adapted in the Gulf Coast, vigorous grower and early bearer. The shell is rather hard and thick, but easily cracked open as soaking the nuts in hot water for a short time. The meat is sweet and rich. As ornamental its immense dark green foliage together with spreading branches makes a desirable lawn or shade tree.

Size.	Each	10
3-4 feet	\$.75	\$.65

GRAPES

CONCORD—Purplish black when fully ripen, very prolific.

MOOR'S EARLY—Both bunch and berries large, black in color, ripens very early.

NIAGARA—White in color, bunch and berries are large, excellent quality.

Age.	Each	10	10
1 year	\$.25	\$.20	\$.15
2 year35	.30	.25

SCUPPERNONG—Best kind in Muscadine type, very popular at the Gulf Coast.

	Each	10
2 year old	\$.50	\$.40

MULBERRY

Best tree for chicken yard planting. The tree is not only good for its berries, but also excellent as shade tree.

Size.	Each	10
4-5 feet	\$.50	\$.40
5-6 feet75	.60

DEWBERRY AND BLACKBERRY

Far superior variety than the one growing wild, most suitable for back yard planting.

Size.	Each	10	100
Small rooted cutting	\$.10	\$.08	\$.05
Large clump50	.40	.35

ROSES

Just few superior varieties, proven to be adaptable to this section. Our roses are all two year old, grafted or budded.

AMERICAN BEAUTY—One of the most popular varieties, flower large, full, rosy crimson, blooms twice a year.

COLUMBIA—Lovely bright peach blow pink and sweetly scented flower, everblooming, strong growth.

ETOIL DE LYON—Beautiful crome yellow to pure golden yellow at the center, flower very double, hardy.

FRANCIS SCOTT KEY—Flower large, very double, lovely red.

KAISARIN AUGUSTA VICTORIA—Flower medium, pure white, very full. One of the best white roses adaptable to the South.

KILLARNEY—Pretty pink flower, semi-double, most admirable while in buds, very hardy.

LADY HILLINGDON—Slender and pointed buds, elegantly cupped flower, deep saffron yellow, very fragrant. Stem is rather weak and bush delicate; yet one of the best yellow roses.

MADAM CAROLINE TESTOUT—Clear satiny pink, flower large, semi-double.

MLLE. FRANCISCA KRUGER—Free bloomer, copper yellow, shaded pink on the outer petals.

RADIANCE—Finest pink rose. Strongest and most vigorous grower of its group.

RED RADIANCE—Deep rich red in color, otherwise same as Radiance (pink) mentioned above, strong grower and free bloomer. We strongly recommend these two varieties of Radiance for the Southern home planting.

WHITE KILLANEY—Same character as Killaney, but color of the flower is pure white.

WHITE LA FRANCE—Flower large, semi-double, light fawn color, almost white, vigorous grower.

WHITE AMERICAN BEAUTY (Frau Karl Druschiki)—Most vigorous grower, flower very large, nearly everblooming.

WM. R. SMITH—One of the strongest growers, heavy bloomer for all seasons, flower large, very double, white tinted with pink in edge, foliage large and glossy, not troubled by disease.

CLIMBING ROSES

CLIMBING AMERICAN BEAUTY—Large flower, rich red, heavy bloomer, strong and vigorous, blooms at spring.

CLIMBING LA FRANCE—Everblooming, flower very large, dark vivid red, one of the best climbers.

CLIMBING HELEN GOULD—Large pink flower, everbloomer, very vigorous grower.

MARECHAL NIEL—Rather delicate, yet the finest of all

yellow climbers. Particularly favored in the South.

Size.	Each	10
2 year, No. 1.....	\$.60	\$.50
No. 2.....	.50	.40
Extra large size 75c to \$1.00 each		

EVERGREEN CONIFERS

ARBOR VITAE

Most popular plant as suitable to foundation planting of landscape gardening. Chinese arbor vitae (Thuya Orientalis) thrives particularly well in the South.

DWARF GOLDEN ARBOR VITAE (Biota Aurea Nana)—

Compact, symmetrical form, dwarf in nature, graceful in lawn, attractive in near porch steps, non-comparatively suitable in urn.

GREEN COMPACT ARBOR VITAE—Character of the tree is the same as Golden Arbor Vitae but the leaves are finer and darker green.

Prices of the above two varieties:

6-12 inch, B. & B.	\$1.00 each
12-18 inch, B. & B.	2.00 each
18-24 inch, B. & B.	3.00 each
24-inch and up, B. & B.	4.00 each

Specimens \$5.00 to \$15.00 each

CHINESE PYRAMIDAL ARBOR VITAE—Rather slender and grows tall. Suitable to foundation planting, strong and vigorous grower.

Size.	Each
6-12 inch, B. & B.	\$.50
12-18 inch, B. & B.	1.00
18-24 inch, B. & B.	1.50
2-3 feet, B. & B.	2.00
3-4 feet, B. & B.	3.00

Large specimens 5 to 15 feet, \$4.00 to \$20.00 each

ROSEDALE ARBOR VITAE—The foliage are dark bluish green. It grows very dense and compact, exceedingly ornamental. If air drainage is poor very often bothered by Aphis—spray needed.

6-12 inch, B. & B.	\$.75 each
12-18 inch, B. & B.	1.50 each

CEDRUS DEODARA (Indian Cedar)

Bluish green foliage, graceful pyramidal form, grand as a lawn specimen, grows large size, particularly adapted to the Southern soil and climate.

Size.	Each
6-12 inch, B. & B.	\$1.00
12-18 inch, B. & B.	1.75
18-24 inch, B. & B.	3.00
2-3 feet, B. & B.	4.50
3-4 feet, B. & B.	6.00

Specimens \$7.00 to \$25.00 each

CEDRUS LIBANI—Not quite so compact as Deodara and apparently more like spruce.

Size.	Each
2-3 feet, B. & B.	\$3.00
3-4 feet, B. & B.	5.00

CRYPTOMERIA

CRYPTOMERIA JAPONICA (Japan Cedar)—Grows tall in pyramidal shape with remarkable beauty. It branches while the tree is smaller in size, very often used for substitution of Araucaria, price of which is very high on account of its scarcity. It is very rapid grower.

Size.	Each
6-12 inch, B. & B.	\$1.00
12-18 inch, B. & B.	1.50
18-24 inch, B. & B.	2.00

CRYPTOMERIA YOSHINO—Foliages are much finer and compact. It grows symmetrical pyramidal shape.

Size.	Each
6-12 inch, B. & B.	\$1.50
12-18 inch, B. & B.	2.00

CUNNINGHAMIA (Chinese Fir)

This is only variety in the fir or spruce group that thrives well in the Southland. The tree grows very large, but if let suckers grow free it makes bushy pyramidal shape. Desirable as lawn specimen.

Size.	Each
1-1½ inch, B. & B.	\$1.50
1½-2 feet, B. & B.	2.00
2-3 feet, B. & B.	3.00

CYPRESS

ITALIAN CYPRESS (*Cupressus Sempervirens Pyramidalis*)—Grows narrow and slender and very tall. Most attractive when planted in group with other evergreens.

Size.	Each
6-12 inch, B. & B.	\$.75
12-24 inch, B. & B.	1.50

Large specimens \$3.00 to \$6.00 each

ARIZONA CYPRESS (*Cupressus Arizonica*)—Bluish green foliage, symmetrical pyramidal shape, rapid grower.

Size.	Each
6-12 inch, B. & B.	\$1.00
12-24 inch, B. & B.	1.50
2-3 feet, B. & B.	2.00

JUNIPER

CANADIAN JUNIPER (*Juniperus Communis Depressa*)—Very valuable dwarf juniper with prostrated branches.

It does not exceed more than 2-3 feet in height, but single plant often spreads 15 feet or more in diameter.

Diameter.	Each
6-12 inch, B. & B.	\$1.00
12-18 inch, B. & B.	1.50
18-24 inch, B. & B.	2.50
2-3 feet, B. & B.	4.00

Large specimens \$5.00 to \$15.00 each

ASHFORDI JUNIPER (*Juniperus Communis* Ashford)—Grayish green foliage, pyramidal shape, elegantly suitable to both plantings, group and lawn. We have this year large specimen only \$4.00 to \$12.00 each

ENGLISH JUNIPER (*Juniperus Communis*)—Columnar form in compact, very graceful. Our trees propagated from best selected specimens.

Size.	Each
6-12 inch, B. & B.	\$1.00
12-18 inch, B. & B.	1.50

SAVIN JUNIPER (*Juniperus Sabina*)—Bushy, with gracefully recurving branches and dark green foliage.

Size.	Each
12-18 inch spread, B. & B.	\$2.00
18-24 inch spread, B. & B.	3.00

SWEDISH JUNIPER—Slow grower, very compact and slender, very fine and short needle foliage, grayish green color.

Size.	Each
6-8 inch, very bushy, B. & B.	\$1.00
8-12 inch, very bushy, B. & B.	1.50

SILVER JUNIPER (*Juniperus Virginia Glauca*)—One of the most beautiful evergreens, silver color of the foliages together with graceful shape of the tree gives grand effects to foundation planting. Thrives well in the South.

Size.	Each
6-12 inch, B. & B.	\$1.50
12-18 inch, B. & B.	2.50
18-24 inch, B. & B.	3.00
2-3 feet, B. & B.	4.50
3-4 feet, B. & B.	6.00

Large specimens, \$8.00 to \$15.00 each

VIRGINIA JUNIPER (*Juniperus Virginia*)—Well known native cedar, grows very well.

Size.	Each
3-4 feet, B. & B.	\$3.00
4-5 feet, B. & B.	4.00

Large specimens, \$5.00 to \$10.00

JAPAN YEW (*Podocarpus Chinensis*)

One of the most ornamental evergreens, upright growth. Leaves dark green, larger and wider foliages to the

other conifers. It grows in sun as well as in shade. Our trees propagated from specimens largest leaved and upright grown.

Size.	Each
8-12 inch, B. & B.	\$1.00
12-18 inch, B. & B.	2.00

RETINOSPORA (Japan Cypress)

PLUME RETINOSPORA—A pleasing variety of rapid growth, pyramidal shape with bright green plume-like foliage. Irregular outline of its habit gives a soft contrast when planted with other conifers.

Size.	Each
1-2 feet, B. & B.	\$2.00
2-3 feet, B. & B.	3.00

GOLDEN PLUME RETINOSPORA—Character is same as above but more compact. Color of foliage is very rich golden green, more so on new growth.

Price is same as the green retinospora.

VEITCH SILVER RETINOSPORA (R. Squerosa Veitch)—A broad pyramidal tree with fine soft textured foliage of a light silvery blue-green, arranged in billowy masses like clouds of smoke. Most attractive effect will be given when planted with other dark green foliaged evergreens.

Size.	Each
6-12 inch, B. & B.	\$1.00
12-18 inch, B. & B.	2.00
18-24 inch, B. & B.	2.50
2-3 feet, B. & B.	3.50

Large specimens, \$5.00 to \$15.00

BROAD LEAVED EVERGREENS

ABELIA GRANDIFLORA

An evergreen shrub with glossy dark green foliage, small bell shaped flower, white tinted with pink, borne in cluster from spring to late in autumn. Advisable for foundation planting, excellent for hedges.

Size.	Each
1 year old, small	\$.35
2 year old, medium50
3 to 4 year old, large	\$1.00 to 1.50

AZALEAS

City of Mobile has been known last several years as "AZALEA CITY". In fact Azaleas are very well adapted to Mobile and its vicinity. It is an evergreen shrub with most beautiful flowers in different colors. No floral display can be prettier than that of Azaleas in spring. We have in our stock more than thirty va-

ieties in both Indian and Japanese Azaleas. Colors: red, pink, watermelon pink, salmon pink, white, brick dust, rose, lilac, etc.

6-8 inch, B. & B.	\$1.00
8-12 inch, B. & B.	1.50
12-18 inch, B. & B.	2.50
18-24 inch, B. & B.	4.00

Large specimens, \$5.00 to \$10.00

CAMELLIAS

CAMELLIA JAPONICA—This is another plant very well adapted to this locality. Its glossy green foliages together with beautiful flowers blooming in winter gives most attractive effects in the Southern gardens. We offer this year nothing but double flowering shrubs in colors of red, pink, white, and variegated.

Prices with exception of Alba Pleno:

Size.	Each
6-12 inch, B. & B.	\$1.00
12-18 inch, B. & B.	2.00
18-24 inch, B. & B.	3.00

Price of Alba Pleno (double white):

6-12 inch, B. & B.	\$1.50
12-18 inch, B. & B.	3.00

CAMELIA SAZANKWA—Small foliage, single flower, colors white and pink.

Size.	Each
6-12 inch, B. & B.	\$1.00
12-18 inch, B. & B.	2.00

CAPE JESSAMINES (Gardenia Florida)—

8-12 inch	\$.35
12-18 inch, well branched, B. & B.	1.00
18-24 inch, well branched, B. & B.	2.00
2-3 feet, well branched, B. & B.	3.00

DWARF CAPE JESSAMINE (Gardenia Radicans)—Dwarf in nature, spreading habit, small glossy dark green leaves, large white flower, very fragrant, blooms in spring. Suitable for border planting, excellent for house plant, setting in pot.

2½ inch pot	\$.35
3 inch pot75
4 inch pot with flower buds	1.50

ELEAGNUS UMBELLATA

Some times called Jerusalem cherry, nearly evergreen.

Leaves silvery grayish green, small red berries edible in multitude appear in fall.

Size.	Each
2-3 feet	\$.50
3-4 feet	1.00
4-5 feet	1.50

JAPANESE EVERGREEN OAK

One of the most beautiful oaks ever introduced from Japan. The leaves are long and of bright glossy green.

Size.	Each
1-2 feet, B. & B.	\$1.25
2-3 feet, B. & B.	2.50

JASAMINE (Primrose)

An evergreen shrub with arching branches, dark green leaves. Pretty yellow flowers at spring.

Size.	Each
1 year, B. & B.	\$.50
2 year, B. & B.	1.00

LOQUAT (Japan Plum)

Large and handsome leaved evergreen, well adapted to the Gulf Coast, white blossoms borne in spikes come in winter month when many other flowering plants are resting. Abundance of fruits in size of wild goose plum should weather be mild. This tree has power of resistance from salty air. We recommend strongly for planting at shore.

Size.	Each
8-12 inch, B. & B.	\$.50
12-18 inch, B. & B.	1.00
18-24 inch, B. & B.	1.50
2-3 feet	2.00

Specimen, \$3.00

MAGNOLIA FUSCATA

Well known plant at the South. Compact and bushy tree with grossy leaves and cream colored flower in fragrance somewhat similar to banana.

Size.	Each
8-12 inch, B. & B.	\$1.50
12-18 inch, B. & B.	2.50
18-24 inch, B. & B.	3.50

Specimen, \$4.00 to \$6.00

NANDINA DOMESTICA

A pretty Japanese evergreen shrub, grows well in sun as well as in shade. Shape of the foliage and growing habit are entirely different from that of ordinary plants.

It is most beautiful sight in winter when leaves turned to beautiful red color and scarlet berries in cluster hanging on.

4 inch pot, 6-10 inch	\$.75
12-18 inch	1.50
18-24 inch	2.50

SMALL LEAVED NANDINA—Known among aged people as "Japanese Tree Fern," as its foliage is so small and somewhat resembles to fern leaves. Leaves not turn quite so red as the other nandina but it grows more compact.

Small clump	\$1.00
Medium clump	1.50
Large clump	2.00

OLEANDER

Red and white in color.

Small	\$.75
Medium	1.25
Large	1.50

PHOTINIA GLABRA

It being our new introduction general public have not as yet known of this most beautiful ornamental evergreen ever brought in this country from Japan. Any one who observed this tree once always agrees with us without a moment hesitation that it is finest plant ever seen and nothing to compare with it. The tree grows 20 feet high with immense white flowers. Most attractive effects will be given when planted between evergreen conifers. It is also non-comparatively beautiful as planted individually in the lawn, trimming in any shape you may desire such as pyramidal, standard or glove. Most unique hedges seen in Japan always have this shrub planted. The tree is very well adapted to this territory. (See the real picture of this tree in the front cover.)

6-12 inch, single stem, B. & B.	\$1.00
12-18 inch, partly branched, B. & B.	1.50
18-24 inch, well branched, B. & B.	2.00
2-3 feet, well branched, B. & B.	3.00
3-4 feet, well branched, B. & B.	4.00

PITTOSPORUM TOBIRA

Shiny green foliages clustered at the end of the twigs. Finest shrub for foundation planting, it can be pruned

to any shape desired for formal garden. It also makes fine hedge.

Size.	Each
6-12 inch, single stem, B. & B.	\$.50
6-12 inch, spread, B. & B.	1.00
12-18 inch, spread, B. & B.	2.00
18-24 inch, spread, B. & B.	2.50
2-3 feet, spread, B. & B.	3.50

PRIVET—

AMOR RIVER PRIVET—(For hedges find prices under heading "Hedge Plants and Vines")—Well known as a best hedge plant, but as landscape planting its value is not as yet noticed by general public. When planted for wide border its compact and dense growth together with immense white flowers in spring gives pleasant effects. If you set several of these plants in your back ground it makes most desirable screen between neighbors and it could be done most economically and in shortest of time too.

Size.	Each
3-4 feet, heavily branched	\$.50
4-5 feet, heavily branched75

WAX LEAVED PRIVET (*Ligustrum Lucidum*)—One of the best broad leaved evergreens adapted to this section of the country, of compact growth with dark waxy green foliage, being free from most of the diseases and insects. Without this shrub foundation planting could hardly be completed. There are many strains inferior to ours. Our cuttings were taken strictly from best of the kind.

Size.	Each
6-12 inch, B. & B.	\$.50
12-18 inch, B. & B.	1.00
18-24 inch, B. & B.	1.50
2-3 feet, B. & B.	2.00

Large specimens \$2.50 to \$4.00

NEPAL PRIVET (*Ligustrum Nepalense*)—Smaller leaves than waxy privet, yellowish shade in a part of the leaf, very pretty.

Size.	Each
6-12 inch, B. & B.	\$.75
12-18 inch, B. & B.	1.50

LOWDENCE RIVET—New introduction, need no clipping as it is dwarf in nature, very attractive.

Strong clump, B. & B.	\$.75
Extra large clump, B. & B.	2.00

SWEET OLIVE (*Olea Fragnans*)

Well known shrub, bright, glossy foliage, small white or yellow flowers, sweet-scented, a few of these trees covers

entire garden with high odor whole winter and early part of spring.

Size.	Each
8-12 inch, B. & B.	\$1.00
12-18 inch, B. & B.	1.50

SWEET BAY (*Iaurus Nobilis*)

A beautiful evergreen shrub with shining dark foliage and creamy white fragrant flowers, can be trimmed to any shape one may desire.

Size.	Each
12-18 inch, B. & B.	\$1.50
18-24 inch, B. & B.	2.50
Large specimen, \$4.00 to \$6.00	

VIBURNUM (*Odoratissimum*)

Very large broad glossy leaves, flowers white and fragrant in early spring, a graceful and decorative plant, grows about 8 feet.

Size.	Each
8-12 inch, single stem, B. & B.	\$.75
8-12 inch, clump, B. & B.	1.25
12-18 inch, clump, B. & B.	2.00

SHADE TREES

CAMPHOR TREES

One of the finest broad leaved evergreens for the Gulf Coast States, hardy and strong grower, well adapted for general planting either as a shade, yard or avenue tree, used more for the last, dying back is scared of but this could easily be eliminated by spraying with Black Leaf 40. We have this year exceptionally beautiful trees in standard shape as well as in bushy tree form to offer for most reasonable prices.

Size.	Each
2-3 feet	\$.75
3-4 feet	1.00
4-5 feet	1.50
5-6 feet	2.00
6 feet and up	\$2.50 to 4.00

CHINESE TANGO OIL TREE

Rapid grower, a good shade tree, pretty flower in spring.

Size.	Each
2-3 feet	\$.50
